Jeremy Collier 2008

We hope this publication has you interested in the possibility of rail. In an uncertain future riddled with high fuel prices, gain the competitive edge you need to stay in the black and thrive with the time-tested effectiveness of rail. Be an industry force to be reckoned with, and let Barron County be there every step of the way to ensure a successful endeavor into the world of rail.

BCEDC Railroad Land Development

Barron County Economic
Development
The Barron County Way...
Real Choice.
Real Reasons.
Real Easy.
We put more life into your
business.

The Barron County Economic Development Corporation is committed to providing businesses with essential information about Barron County in the ongoing process of economic growth, development and expansion.

Barron's central location within Barron County makes it a regional hub.

Quick Stats

- One rail car carries the equivalent of 3 to 4 truckloads of cargo.
- \$1.4 million of products are transported by rail on this corridor each year
- 2,446 businesses were located within 5 miles of this corridor in 2006
- Railroad meets FRA I standards
- Rail transport is more fuel efficient than trucking
